#### Profile:

Dedicated DeFi Analyst and Crypto Researcher with 4 years of experience in financial modeling, tokenomics, and on-chain data analysis. Proficient in SQL and Python for data extraction and insights. Seeking a mid-level analyst or strategist role in a dynamic DeFi project, open to roles in New York or Remote.

#### Work History:

DeFi Analyst  
CryptoFund LLC (New York, NY)  
2021 - Present

- Analyzed and evaluated various DeFi protocols (e.g., Aave, Uniswap, Curve) for investment opportunities.
- Developed financial models and risk assessment frameworks for digital assets.
- Utilized Dune Analytics and Nansen for on-chain data tracking.

Blockchain Researcher  
DeFi Insights Co. (Remote)  
2019 - 2021

- Researched emerging trends in tokenomics and Layer 2 solutions.
- Authored reports and articles on the DeFi landscape.
- Contributed to building data pipelines with Python and SQL.

#### Technical Skills:

- Data Analysis: SQL, Python (Pandas, NumPy), Dune Analytics, Nansen, Excel
- DeFi Knowledge: Lending Protocols, DEXs, Yield Farming, AMMs, Impermanent Loss
- Financial: Financial Modeling, Risk Assessment, Tokenomics

#### Education & Certifications:

BSc Economics  
Columbia University

CFA Charterholder  
CFA Institute
